Notes on Parcel Preparation

Note 1

The maximum weight per parcel is 25kg. We use either 25kg dead weight or a cubic conversion of .464 x .464 x .464, whichever is the greater. The maximum parcel length is 2.2m.

Note 2

Any items classed as dangerous goods are not accepted, i.e. gas bottles, flammables, corrosives, pressure packs or dry ice.

Note 3

Goods are carried at consignors risk only. We recommend strong, secure packaging for all goods, and that items be insured before despatch.

Note 4

If sending multiple parcels to one receiver, please address and place coupons on each parcel. Please also number multiple parcels such as 1/3, 2/3, 3/3, etc. This helps ensure all parcels travel together and are delivered on time.

Note 5

To enable prompt delivery, ensure both the sender's and receiver's name and address and phone number are on each individual parcel.

Note 6

Freight cannot be delivered to Post Office (PO) box numbers or mail service (MS) numbers. Please call us for delivery options.

IF TRANSIT INSURANCE IS REQUIRED IT MUST BE ARRANGED PRIOR TO DESPATCH. ASK YOUR COURIER FOR DETAILS.
